**DETAILED ACTION**

Applicant's election of the invention of Group 3, claims 1-13 and 31-40 (in part) drawn to a method of employing the compounds of Formula (3) in Paper No. 7, received August 24, 2001 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Applicant's election of i) the species of compounds of formula (3):  $X=C(CH_3)_2$ ;  $R_1=R_2=H$ ;  $R_3 = R'_3 =CH_3$  and are bonded to the C8 carbon;  $R_4=CH_3$ ,  $Y=phenyl$ ;  $A$  is absent,  $q=0$ ; and  $B=COOH$  and ii) the species of the disorders: hypocholesterolemia in Paper No. 7, received August 24, 2001 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

As the specie of the organosilyl compound and the method of employing the same to treat hypocholesterolemia have been found to be free of the prior art, the search herein has been extended, in this instance, to all species of the organosilyl compounds of formula (3) and disorders herein.

Claims 14-30 are cancelled in the amendment filed August 24, 2001.

Claims 1-13 and 31-40 have been examined herein to the extent they read on the elected invention.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1617

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-13 and 31-40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "providing" in claims 1, 30, and 37 renders the claims indefinite as to the method step encompassed by the claims. How is the compound provided to the mammal? The examiner would favorably consider using the phrase such as "administering the mammal in need thereof" in the claims.

#### ***Allowable Subject Matter***

The claimed method of a pathological condition in mammal in claims 1-13 and 31-40 employing the organosilyl **compounds of Formula (3)** herein is not seen to be taught or fairly suggested by the prior art.

The applicant is suggested to cancel the non-elected subject matter (i.e., compounds of Formula (1), (2), and (4)) in the claims.
